Company Profiles

Sanmina Corporation

Global electronics manufacturing services provider specializing in complex PCB assemblies for various industries including medical devices and aerospace applications.

Express Manufacturing Inc. (EMI)

EMS provider offering fast, reliable contract manufacturing for OEMs, specializing in precision electronics for medical and energy sectors.

FS Technology

ISO 13485 certified company for medical PCB manufacturing and assembly with competitively priced production services.

Topscom PCB Assembly

Specialist in energy and metering PCB assembly, with experience serving over 120 utilities and supporting AMR technology integration.

Murrietta Circuits

Vertically integrated company offering complete turnkey PCB assembly for critical industries including energy, space, medical and defense.

Creative Hi-Tech

Provides PCB assembly services for high temperature electronics with specialized testing capabilities for medical, aerospace & energy industries.

Viasion Technology

Specializes in small to medium-volume PCB manufacturing and assembly, with dedicated medical device electronics production capabilities.

PCBMay

Trusted energy meter PCB manufacturer and distributor serving clients worldwide with specialized metering technology solutions.

Premier Manufacturing

Full-service PCB contract manufacturer located along the front range specializing in aerospace electronics and energy control systems.

Meritek EMS

Provides customers with over 25 years of leadership in advanced PCB Assembly technology for medical and oil & gas applications.

TTM Technologies

Medical PCB manufacturer offering medical manufacturing, medical PCB assembly, medical device PCB design and other specialized services.

All Flex Solutions

Specializes in medical device PCB manufacturing solutions including flexible circuits, CatheterFlex PCBs, and rigid flex circuits.

Logwell Technology

Specialized importer of PCB assemblies for medical devices and green energy applications with focus on imaging and sensor technology.

PCB Connect Group

Long established and globally positioned supplier of Printed Circuit Boards with specialized energy and power division.

POE PCBA

One-stop solution partner for Clean Energy equipment-related PCB manufacturing and assembly services focusing on renewable energy applications.
